Offers special inducements to Advertisers desiring to reach this class of people. It publishes and circulates more papers in Cincinnati and immediate vicinity than any other journal issned in this city. It is taken and read by people at THEIR HOMES; and for all classes of goods, where the Advertiser desires to reach the family, is more valnable, even in proportion to circulation, than a paper that is a favorite only in the counting-room. Its news covers the affairs of every day life, dressed up in such a manner as to be of special interest to the ladies; and its advertisements are therefore brought more conspicuously before them than is the case with any other paper in this city. For these reasons, and many others which we might cite, the STAR is an unequaled medium for
